Profile

Full-Stack Software Engineer with 1.5+ years of production experience building scalable web and mobile platforms using NestJS, React Native, Node.js, MongoDB, Redis, and RabbitMQ. Peer-reviewed AI/ML researcher with 92% model accuracy. Transitioning toward AI/ML Engineering with hands-on experience in Python, scikit-learn, and NLP pipelines.

Skills

- **Languages:** JavaScript, TypeScript, Python, SQL
- **Frontend:** React.js, Next.js, React Native
- **Backend:** Node.js, NestJS, REST APIs
- **Databases:** MongoDB, PostgreSQL, Redis, Supabase
- **Messaging:** RabbitMQ, Firebase, FCM
- **AI/ML:** scikit-learn, NLP, TF-IDF, Random Forest, Pandas
- **Tools:** Git, Postman, Figma, Vercel, Auth0, Docker

Experience

Software Engineer | OneKampas Technologies | Jan 2026 – Present | Pune

- Independently built NestJS modules, controllers, services, and guards from scratch for a multi-role campus placement platform serving students, TPOs, and employers
- Architected and implemented a real-time push notification system using RabbitMQ and FCM independently, enabling reliable cross-platform delivery at scale
- Led Redis caching implementation on high-traffic API endpoints, reducing average response time by ~40%
- Owned 5+ feature modules end to end — job listings, assessments, notifications, admin dashboard, and disputes — across NestJS backend, Next.js web, and React Native mobile
- Delivered all features in strict TypeScript across backend and mobile, ensuring type safety and consistent API contracts

Software Engineer Trainee | OneKampas Technologies | July 2025 – Jan 2026 | Pune

- Contributed to live production features from day one using React Native, NestJS, Node.js, MongoDB, Redis, and RabbitMQ
- Built and tested backend API workflows independently using Postman, gaining hands-on exposure to distributed system operations
- Accelerated ramp-up by leveraging AI-assisted development tools, enabling faster feature delivery and debugging

Web Developer Intern | Pune | Inorbvict Healthcare | Jan 2025- July 2025

- Built and deployed 3+ responsive web pages using WordPress and Wix, improving cross-device accessibility for healthcare clients.
- Designed UI/UX wireframes in Figma that were adopted directly into production, reducing stakeholder revision cycles by 2 rounds.
- Translated client requirements into functional web features, collaborating across design and product teams end-to-end.

Projects

AI Chat & Image Generation Assistant (ChatGPT Clone)

Project link-<https://sample-394jmt65-devendras-projects-75b21e17.vercel.app/>

Tech Stack: Next.js, tRPC, Supabase, Auth0, Gemini API, Vercel

- Built a full-stack AI chat and image generation platform with Gemini API integration, Auth0 authentication, and Supabase-backed chat history.
- Architected with Next.js 14 and tRPC for end-to-end type safety, deployed on Vercel with serverless scaling.

Resume Classifier

Technologies Used-Python, Scikit, Pandas

- Built an automated resume classification system using TF-IDF vectorization and Logistic Regression, achieving 85% accuracy across multiple job role categories
- Designed a full NLP preprocessing pipeline — tokenization, stopword removal, and feature extraction — on 100+ real resume samples

Research

AI Powered Predictive Analytics for Personalized Learning and Improved Holistic Development: An Ethical Framework

Published in Computology: Journal of Applied Computer Science and Intelligent Technologies

DOI: 10.17492/computology.v5i1.2505

- Independently authored and published a research paper on AI-driven predictive analytics for personalized learning.
- Researched and compared machine learning models including Random Forest, Naïve Bayes, and RNNs for student performance prediction.
- Applied NLP, feature engineering, and data preprocessing techniques for learning pattern analysis.
- Achieved up to 92% prediction accuracy while proposing an ethical AI framework for responsible AI usage in education systems.

Education

MCA - ICEM Pune - 71%

BSC-IT - SIES NERUL - 63%

Certifications

Python Data Analysis and Visualisation

Udemy

MERN Developer Bootcamp

Extra-Curricular

State level Leather Cricket Player (2017-18)

General Secretary Of College Committee (2019)

Hobbies

Non fiction Books | Yoga | Touch Typing
